OFFICIAL INFORMATION has been received at the State Department at Washington of the taking of Queretaro by the Liberals, and the capture of Maximilian and his Generals. This comes from President Juarez himself. But he does not state what disposition he had made, or intended to make, of his illustrious prisoner. A report comes from Gen. Escobedo that Juarez had ordered Maximilian and all his Generals to be shot. This report is not true. However such execution might gratify the passions of the Mexican people, the civilized world cannot fail to look upon it with horror.

WE HAVE been requested by a number of friends to express the gratitude of the lecture-going community, to the energetic and indefatigable Committee of the Young Men's Mercantile Library Association. Their course, ended a few weeks ago, was the most brilliant and attractive ever offered in the city. The selection of orators and lecturers reflected the greatest credit upon the Association, and spoke volumes in favor of the judgment, intelligence and enterprise of the Committee. Whether pecuniarily successful or not, the course was eminently deserving of patronage, and we trust the same committee will be retained next season, as the community can safely depend upon its members for a fair supply of wholesome literary food.

M. WALPOLE has resigned his place in the English Cabinet as Home Secretary, because he had made himself obnoxious on account of the opposition to the popular meetings on the Reform Bill. The London *Star* says: "Throughout the whole of the Hyde Park business his conduct appeared a perfect example of vacillation, meanness, and blundering injustice. Yet, it now appears certain that the whole Cabinet were responsible for every step taken, and that the gross and grievous mistakes made, to call them by no harsher name, were due to the inherent defects of a Tory Government, and not to the faults of an individual Minister."

THE CENTRAL PACIFIC RAILROAD of California, as yet completed only ninety-four miles, and running wholly along the mountain side, has done so considerable a business as, after paying expenses and annual interest, to leave three quarters of a million of dollars applicable to the work of construction. When the whole line, from Omaha to Sacramento, shall be completed, and traffic fairly opened over it between the Atlantic and Pacific Oceans, the enterprise will not only be demonstrated one of the grandest, but also one of the most remunerative, of modern times.

AT PHILADELPHIA the bar-rooms of hotels and the drinking saloons have always been kept open on Sundays as on other days. Last Sunday, under a law passed by the last Legislature, a nominal closing was enforced; that is, the front doors were shut, while the back ones were kept open. When a large minority are resolved to drink, on one or all days of the week, it does not seem to be easy to stop them. Even in Pittsburgh, where bars are rigidly closed on Sundays, it is not rare to meet drunken men in the street on that day.

AT MOBILE, the jury have rendered a verdict upon the riot. The conclusion is that white men began the tumult; but blame is put on Mr. Kelley for too soon losing his temper.

Mr. Wilson is quite as radical in his views as Mr. Kelley. He made a dozen speeches at the South, and in no instance was interrupted. In half the places where Mr. Kelley spoke there was more or less trouble. This goes to show that some defect existed in Mr. Kelley's manner of delivering his opinions.

HAVING settled the Luxemburg question, the great European powers have taken up the Eastern question. This latter question has been adjusted a dozen times within fifty years, but, like Banquo's ghost, is sure to come up again when least wanted. As the hands of France are not tied by a war with Prussia, the Emperor of Russia may find it expedient to forego once more the execution of his purpose.

AT ST. LOUIS, on Wednesday, a permanent organization of the grape growers of the Mississippi valley was effected, Dr. C. W. SPALDING being elected President. The object of the association is to encourage and promote the growth of the vine in that section, with a view of more fully developing the great valley as a wine producing tract, surpassed by no other in the world.

THE Supreme Court have unanimously declared the law for the more efficient ordering of Police in Schuylkill county, passed by the last Legislature, to be unconstitutional. We are not disposed to question the legality of the decision. But men who do not belong to the ruffian class will find a residence in Schuylkill decidedly uncomfortable.

IF ANY MAN is under the impression that Gov. Brownlow, by age and infirmities, has lost any of the fire, pluck and vituperation that characterised his meridian strength, he has not read the Parson-Governor's recent open letters to some of his enemies. Brownlow has mental power enough left to wear out several bodies.

IT is reported in an English journal that the United States are "negotiating for the purchase of all British America from the Pole to the fortieth degree of latitude, and from the Pacific Ocean to the Canadas;" and that "Lord Stanley is only holding out for Vancouver's Island."

BISHOP SIMPSON, at Washington, Del., recently, in a sermon asked from the congregation of Grace church the sum of ten thousand dollars for some charitable purposes. He received one and a half times that amount from the over generous congregation.

THE Judiciary Committee are now endeavoring to find out why Mr. Davis was not tried. If that duty had been entered upon a year and a-half ago, some tangible result might have been produced. However, it is well to have all the facts put on record.

QUARTER MASTER GENERAL MEIGS, a faithful and efficient officer, whose health has been rapidly declining under arduous labor and confinement, departs for Europe next week, having obtained a liberal leave of absence.

DURING the last twelve months 42,600 persons have been arrested in New York city for being "drunk and disorderly." Does this fact illustrate the capacity of New Yorkers for self-government?

THE Fire Department of New York has been thoroughly reorganized. The paid department operates much better than the old volunteer system.

O'BRIEN CONVICTED.

A dispatch from Dublin states that the jury brought in a verdict of guilty against O'Brien, coupled with a recommendation to mercy.

MINISTER ADAMS TO INTERPOSE.

It is said the American Minister, Adams, will interpose his good offices to save the prisoner McClure from the scaffold.

LATEST INFORMATION.

LONDON, May 27—*Evening*.—It is authoritatively announced that the Government has commuted all capital sentences of Fenian prisoners to imprisonment for life.

DENMARK.

REPORT AUTHORITATIVELY DENIED.

The Danish Government has addressed a circular note to its representatives at the courts of the European powers, denying the truth of the report, which had gained some credit, that the Prussian Cabinet had entered into negotiations with the Cabinet of Copenhagen with a view of bringing about the retrocession of the province of Schleswig to Denmark.

HUNGARY.

POLITICAL LETTER FROM KOSSUTH.

TURIN, May 27.—M. Kossuth has written a letter on the state of political affairs in Hungary, in which he condemns the course of action which M. Deak, leader of the popular party, has seen fit to adopt in the Hungarian Diet and in his dealings with the Imperial Government of Austria, and blames him for swerving from the true path which Hungarian patriots should follow.

ST. PETERSBURG, May 25.—The Government of the United States has offered to sell to the Czar the famous iron clad monitor Miantonomah, a frigate and two new and very fast iron-clad war cruisers. The proposition has been favorably received by the Emperor and his Cabinet, and is likely to be accepted.

THE EASTERN QUESTION.

Since the adjournment of the London peace conference, and the adjustment of the Franco-German quarrel relative to Luxemburg, the long vexed eastern question has assumed much more importance. Diplomacy is now engaged in the consideration of a plan for its peaceful settlement, and efforts will shortly be made for its final solution.

THE CONDEMNED FENIANS.

DUBLIN, May 25.—If the Fenian leaders Col. Burke and Col. McClure, who pleaded guilty, and thus avowed their treason, are hanged pursuant to law, the authorities expect sudden and sharp reprisals on the part of the members of the Fenian organization here. The counsel who prosecuted for the Crown are guarded day and night by a force of armed policemen, who appear in citizen's dress. Colonel Burke was sentenced to be hanged on Wednesday, the 29th of May. Mr. Doran's death sentence has, I believe, been commuted. Should Burke be executed, it is most likely that Colonel McClure will share the same fate, as he plead guilty, and now lies condemned to undergo the highest penalty of the law.

ANOTHER REFORM DEMONSTRATION.

Another imposing and very influential demonstration has been made in favor of Parliamentary reform, in the shape of a very crowded meeting, held in St. James' Hall, to-day. John Stewart Mill, with the Liberal members of the House of Commons, attended, and spoke earnestly in support of the extension of very comprehensive measures of enfranchisement for the people.

Mr. Gladstone and the National Reform Union—He Responds to an Address—Meeting in Dublin in Behalf of the Condemned Fenians.

NEW YORK, May 27.—The steamers City of Baltimore, from Liverpool, and Tampico, from Havre, have arrived.

The National Reform Union, in an address to Mr. Gladstone, asked him to take up the bold cry of household suffrage, as it would have the sympathy and approval of the whole nation. He responded re-assuringly and was caustic in criticising the government bill. He explained the reasons which led him to adopt the five pound line, and would not say that under no circumstances would he revive it. He did not commit himself, however, to the bold cry of household suffrage.

Mr. Bright also addressed the Union, advising petitioning throughout the country.

A public meeting in Dublin, presided over by the Lord Mayor, adopted a memorial to the Lord Lieutenant, asking that the lives of the condemned Fenians be spared.

[By Telegraph to the Pittsburgh Gazette.]

WASHINGTON, May 27, 1867.

FROM CINCINNATI.

Old School Presbyterian Assembly—Ninth Day—Session in Covington, Ky.—The Suspension Bridge Over the Ohio.

[Special Correspondence Pittsburgh Gazette.]

COVINGTON, KY., May 25, 1867.

NINTH DAY.

The discussion on the "Report of the Ten," continued all the afternoon yesterday, and also during an evening session. The speeches were generally able and eloquent on both sides, and in admirable spirit, kind, courteous and christian. Mr. Niccolls, of St. Louis, a young man of fine talents and a pleasant, fluent speaker, made a very effective speech in answer to Dr. Brooks and Dr. Anderson, of St. Louis. He showed that the authority of the General Assembly over inferior courts and over individual ministers was recognized and maintained by Calvin, the Westminster Assembly, and the Church of Scotland. In the olden time the offender was required to get on his knees before the pulpit and acknowledge his fault and beg pardon. If he refused he was excommunicated. Mr. Niccolls said the most eminent legal advisers held the same opinion of the powers of the General Assembly.

Mr. Yantis, of Kansas City, made a speech full of point and pleasantry. He was contesting the seat of Mr. Fraser, who came from the same place. He proposed that inasmuch as Mr. Fraser had already sat through half the sessions of the Assembly, he should let him have the seat for the other half. He thought this would be a courteous way of doing things.

Mr. Fraser could not see it in that light. He said that as Mr. Yantis was a signer of the Declaration and Testimony, he could not, according to the Assembly's own order, occupy a seat in this house. He said: these very men who were so much opposed to preaching politics and talked so much about the spiritual theory of the church, were notorious for preaching politics themselves; politics, too, of a very mean sort.

DECLARATION AND TESTIMONY MEN REFUSED SEATS.

A vote on the report of the Committee of Ten was had at about 10 p. m., which sustains the report by an overwhelming majority. The vote stood, 236 ayes, 4 noes, and 1 not voting. The Declaration and Testimony men are, by this vote, refused seats and are required, in order to regain their original status in the Church, to sign a declaration to the effect that they meant no disrespect to the General Assembly, that they withdraw whatever was considered offensive, and express their adhesion to the General Assembly.

SESSION IN COVINGTON.

This morning the Assembly held a session in Covington, Kentucky, in order to attend to some business connected with the Danville Theological Seminary, which for some time has been suspended. The charter of that institution requires that the election for trustees must be held on Kentucky soil.

THE SUSPENSION BRIDGE.

We came over on the magnificent suspension bridge which connects this place to Cincinnati. This is one of the finest suspension bridges in the world. It is a hundred feet above low water mark. The chief span is over a thousand feet in length, and said to be the longest single span in the world. The great stone towers on which the bridge is suspended are 230 feet high. They are in the form of grand arches. They are more imposing than the great triumphal arch of Napoleon in Paris. The arch of Titus, in Rome, is not to be compared to them. These wonderful arched towers give the bridge an air of grandeur. But for beauty, grace and airiness of look, it is surpassed by the iron truss bridge at Steubenville, one of the most beautiful bridges in the world.

PRINCETON SEMINARY.

The Assembly met in the first church of Covington. The first business was to hear the reports of the Theological Seminaries. The report of the Princeton Seminary showed that fifteen of the students have already announced their purpose to go as missionaries to the heathen. Trustees for the Danville Seminary were elected, a new professorship established and the following chairs were filled: Dr. E. P. Humphrey was elected to the chair of Biblical and Ecclesiastical history; Dr. S. Yerks to the chair of Biblical and Oriental literature, and Dr. R. W. Landis to the chair of Church Government and Pastoral Theology. Dr. Breckenridge is already in the chair of Theology. These are thorough loyal men, quite enough so for Kentucky, and men of great ability and learning. It is proposed by Dr. Breckenridge to have their session in the summer so that students from northern seminaries whose term of study is in the winter, may, if they choose, go to Danville in the summer and thus pursue their Theological studies continuously until they have finished the course. A series of objection urged against this plan is the danger of young men being orthodoxed and overworked by this method and so beginning their ministry enfeebled in health.

This Assembly is evidently pervaded by the Holy Spirit. This is, no doubt, the secret of the great harmony that prevails in the settlement of very difficult and delicate questions.

Gen. Grant's father, who lives in this place, is present this morning, an interested spectator of the proceedings.

Publication Society Anniversary at Chicago—The Reports of the Treasurer and Managers.

[By Telegraph to the Pittsburgh Gazette.]

CHICAGO, May 27.—The American Baptist Publication Society continued its regular anniversary meeting this forenoon. After prayer, and address by the President, the report of the Treasurer was read. The Report shows the receipts in the benevolent department last year was $92,440,60; Expenditures $92,422,42. Receipts in the business department, including balance, $147,725.28; disbursements the same time $147,716.08. The report was accepted and adopted.

The forty-third annual report of the Board of Managers was then read and adopted.

The meetings will continue until Thursday. A larger number of delegates are present than at any previous anniversary, between 4,000 and 5,000 being in attendance.

The Buckeye Races.

[By Telegraph to the Pittsburgh Gazette.]

CINCINNATI, May 27.—The Spring races over the Buckeye Club Course opened to-day. Two races were announced, the first a hurdle handicap, for all ages, stakes $500, two miles over eight hurdles; but was postponed on account of the weather. The second race was for the Buckeye Club stakes of $500—mile heats, for three year olds. Three horses started. The first heat was won by Kean Richard's bay colt, by Lexington; time 1:54¾. The two last heats were won by Alexander Marlos, 1:55 and 1:58¼.

The weather was very unfavorable. It rained nearly all day and the track was heavy. The attendance was consequently small. To-morrow bids fair to be pleasant, when the Burnett House stakes will be contended for.

Massachusetts Temperance Anniversaries.

[By Telegraph to the Pittsburgh Gazette.]

BOSTON, May 27.—An anniversary meeting of the various temperance organizations of Massachusetts was held this evening in Tremont Temple. There was a crowded attendance. One feature of the meeting was the presentation of a Dore Bible to Rev. A. A. Minor and Wm. B. Spooner for their services in behalf of prohibition. Hon. Henry Wilson presided.

SECOND EDITION.

FOUR O'CLOCK, A. M.

FROM WASHINGTON.

Surratt's Trial Postponed.

EMANCIPATION IN BRAZIL.

Fenians Not to be Executed.

THE WESTERN PACIFIC RAILROAD.

[By Telegraph to the Pittsburgh Gazette.]

WASHINGTON, May 27, 1867.

SURRATT'S TRIAL POSTPONED.

The trial of John H. Surratt, on motion of the Government, was postponed until the 10th of June, in order to afford time to procure the attendance of several important witnesses. United States Attorney Carrington and Judge Pierpoint briefly argued in favor of postponement or continuance of the case until another time. Several important witnesses are absent, and efforts have been made to secure them, but without success. One was in New York, the second in Maryland, the third in Michigan, and the fourth, an actor, has gone to California. These witnesses may possibly appear at any day. New testimony and new facts have also been recently discovered. New developments have also been made. In a case of this importance the prosecution would not like to go to trial unless ready and prepared.

Mr. Merrick replied, stating that the counsel for the defense had been diligently engaged in bringing witnesses to Washington at heavy expense, one of them from Canada, and another from the extreme southern end of the Union. If the case was further continued, or postponed till next term, it would be impossible to keep the witnesses here.

The Court thought it would be well to call the witnesses in order to determine whether some future time should be set for the trial.

Judge Pierpoint moved the case be postponed till the 10th of June.

Mr. Bradley opposed the motion, saying the United States had ample time to have witnesses for the prosecution here.

The Court, after consideration of the subject, said the case was postponed two weeks from to-day, in order to afford further time to procure the attendance of witnesses.

EMANCIPATION IN BRAZIL.

Counsellor De Azambuja, late Minister to Brazil at Washington, under date of New York, May 20th, addressed a letter to Secretary Seward in reference to the reported emancipation of slaves by the Emperor of Brazil. He says: "I have only to communicate to your Excellency that I have not received any official notice that the Imperial Government has decreed the emancipation of slaves in the empire as published by the press in this country in a telegram received through the submarine cable, and this I do in this way, and from no mere scruple about my position, not doubting but that this measure is already resolved upon by my country, in principle at least, to go into effect, as to the manner of the execution, with the concurrence of the legislative chambers."

CATHOLIC SUNDAY SCHOOL CELEBRATION.

The celebration and May festival of the Roman Catholic Sunday Schools took place to-day. At least three thousand five hundred children were in line. When the procession had passed in review before the President, two of the May Queens, their carriages halting, severally presented him with boquets, and one of them delivered a brief speech, in which she said they had been directed to-night to pray with an affecting voice that he especially may receive light and strength from Heaven to direct wisely and benignly teach their dear native land. The compliments were appropriately acknowledged by the President, and the boys cheered him as they passed along in the procession.

PATENT TO THE WESTERN PACIFIC RAILROAD.

The Commissioner of General Land Office has received from the Secretary of the Interior information that the President of the United States has accepted the first section of twenty miles of the Western Pacific Railroad, commencing at the corner of Dame and San Pedro streets, in the city of San Jose, and extending to a point near the eastern boundary of Alameda Canon, in Alameda county, California, and ordered the issuance of a patent on account of said section, in conformity with the law.

FENIANS NOT TO BE EXECUTED.

The Secretary of State has received a dispatch from London, announcing that the capital sentences of the Fenian leaders, Burke and McCafferty, have been commuted to imprisonment for life.

SOCIETY OF FRIENDS' YEARLY MEETING.

The yearly meeting of the Society of Friends, of Hicksites, took place to-day at the Meeting House in Rutherford place. The propriety of members accepting places under the Government was the chief subject that occupied the attention of the members, some being opposed to it and others expressing themselves disinclined to leave the control of State affairs in wicked hands.

Presbyterian Assembly at Rochester.

[By Telegraph to the Pittsburgh Gazette.]

ROCHESTER, May 27.—The Presbyterian General Assembly this morning was occupied in unfinished business of minor importance.

Delegates to corresponding bodies were appointed.

The report of the Standing Committee on Ministerial Relief was adopted.

The Assembly recommended the observance of the week, beginning with the first Sabbath in January, as a week of special prayer for the conversion of the world. The observance of a day of special prayer for colleges and seminaries was also recommended.

Railroad Case—Heavy Damages.

[By Telegraph to the Pittsburgh Gazette.]

BALTIMORE, May, 27.—In the Superior Court, this morning, in the case of Adeline Price vs. the Northern Central Railroad—action for damages for killing the plaintiff's husband, by first crushing him between their cars at Cockeysville, and then locking him up all night in one of their warehouses, without medical attendance, in consequence of which he died.—the jury returned a verdict for $15,000 damages.

Fenian Rumors—Bishop Lynch.

[Special Correspondence Pittsburgh Gazette.]

BUFFALO, May 27.—There is no truth in the report of Fenian activity here for an immediate invasion of Canada. Everything is quiet in fenian circles. Bishop Lynch, of Toronto, is slightly better.

THE DAYTON WONDER.—Brown, the Dayton, O., wonder, lived fifty-nine days without taking any thing in the shape of food—his frame wasted until nothing but skin and bone seemed left of a once robust man. The muscles supporting that portion around the stomach and bowels gave way, and fell into the back-bone, as he lay extended on his back.

On the sixtieth day he felt a desire to eat, and did partake of a little toast and coffee, and so for three subsequent days, but this gave him so much pain that he desisted from further eating, and up to this time of writing, nineteen days, he has not tasted food, and was still living this morning.

Many are disposed to treat this matter as a humbug, and say that the man eats. To all such we have but to say, go satisfy yourself upon that point; we are satisfied the man has not taken food except as we have stated. Here, then, we have a man living in our midst, we might say eighty-two days, without eating as much as would suffice to sustain a child, and twenty-eight days of total abstinence from food. Where are you, scientific men, that you do not investigate it?

—David Kelso, who killed William Kelley, a chum, at Ellisville, N. J., last February, by ripping his bowels out with a dirk knife, has been convicted of murder in the first degree, in Camden county. This is the first conviction for murder that is to be found on the records of that county. The murder was the result of a quarrel.

—Wm. H. Horton, one of the proprietors of the cotton warehouse damaged by fire in New York, a few nights since, has been arrested and held to await an investigation into the cause of the conflagration.

REFORMED PRESBYTERIAN SYNOD.

FIFTH DAY'S PROCEEDINGS—MONDAY.

Synod met yesterday morning at nine o'clock, and was opened by prayer by the Moderator.

After the usual preliminary morning business, Rev. A. Stevenson read his reasons of dissent from the vote of Synod admitting Rev. J. Buck, ordained by Pittsburgh Presbytery as a missionary, as a constituent member of Synod. The burden of the reasons was that the act subverts the principle of Ecclesiastical Government, that the people have a right to choose their own rulers.

COVENANTING.

Rev. D. Scott, D. D., read the report of the Committee of last Synod on Covenanting. The report is as follows:

WHEREAS, Social covenanting is authorized by the Word of God; and its advantages recommended by the experience of the church in past ages. And whereas, we acknowledge and avow our belief in the scriptural doctrine, of the universal moral dominion of our Lord and Saviour Jesus Christ—and of the obligation of all rational creatures to submit themselves to his government;

And, also that civil society being a divine institution, nations as well as individuals having the light of the gospel, are under obligation to do homage to Him in all their civil relations, by conforming to the known will of God, exhibited in supernatural revelation.

Your Committee therefore recommend, as necessary to meet the exigency of the present time, and as a renewed exhibition of our testimony on behalf of the Crown Rights and royal prerogatives of our Divine Mediator, the adoption of the following bond and engagement:

We, the undersigned, do now, in the presence of Almighty God, avow our belief in the true reformed religion; and in the scriptural doctrine of the universal dominion of our Lord Jesus Christ, engage and covenant to hold and maintain this, our belief, as the very truth of God; and shall by every possible means, competent to us, in our respective places and relations, adhere to and defend the doctrine of the dominion of our Lord and Savior Jesus Christ over the nations, when opposed, and will withhold, or withdrawn our acknowledgment and approval, as the ordinance of God, to be submitted to for conscience sake, of every civil government that does not do homage to our Divine Mediator by a recognition of the Bible as the Supreme law in all things civil as well as religious—and that does not apply this rule in respect to its Constitution, the character of its rulers and laws.

Finally, we enter into this covenant with the eternal God, as one God in Christ Jesus, and commit ourselves to His grace and mercy, for strength to fulfill our solemn engagements: And commend this blessed cause to the thoughtful consideration of the christian community around us.

The report was accepted, and on the motion to adopt, the chairman of the committee said that the time for entering into a covenant, with a full board, is too short. This bond reported is a covenant in regard to a particular part of the Church's testimony. We are now, as never before, in a very favorable position and circumstances to engage in Covenanting. We were always agreed as to our duty to acknowledge allegiance to Christ as Lord of nations and King in Zion. Not only our own church but others are laboring to promote national reform. If we now allow the opportunity to pass, we may not again have it. If we go forward in unity we may make the church a unit and present this unity as never before. As we proceed, also, we make a landing place, as it were, for the wise and good of other bodies, who may make a bond of their own, or accept ours, and carry out the work of National Reform. There are special reasons why we should now enter into covenant in a bond of this specific character. All know what a happy effect such bonds once had upon the church. Our fathers, fearing being overwhelmed by Popery, entered into the National Covenant. In 1648 the Church was a unit, when the Second Covenant was sworn; and this has been, until the present time, a blessed bond of reunion. As to a Covenant in reference to the Crown Rights of Messiah, we have a subject most important and heightened in importance by the exigency of the time. The language of the Word is—"Thou hast given Him power over all flesh" &c. This purchased dominion the Church should take pleasure in ascribing to Him. John heard every creature in Heaven and earth, and under the earth singing, "Worthy is the Lamb that was slain to receive Power," &c. With these voices we should unite. The day is not far distant when shall be heard voices proclaiming not only that "Babylon is fallen," but also that the "Kingdoms of this world are become the Kingdoms of our Lord and of his Christ." Shall we carry on that good work until Christ is crowned Lord over the Nations! Or shall we lose the opportunity now so favorable!

In the second Reformation the rights of Jesus Christ as Head of his Church were well understood by the Reformers. His claims to dominion over the nations were not so well understood or recognized. This, His claim over nations, is now the most pressing. It required twenty years to teach our fathers the duty of recognizing this claim. The banner of the Church in the days of James Renwick shook the royal throne. The same truth for which the martyrs then contended is now the present truth—the duty of covenanting a present duty. Perhaps before another Synod the importance of the claims of Christ may penetrate the mind of the nation; and the time may not be far distant when, from the Atlantic to the Pacific, the blue banner of the Covenant may float over this great Republic, and those who have contended for the truth rejoice.

The further consideration of the report was made the order of the day for this forenoon.

UNFINISHED BUSINESS.

The report on Unfinished Business was again taken up, and various items disposed of.

ENDOWMENT FUND.

The Committee on the Endowment of the Theological Seminary, W. T. Miller, Chairman, reported that since the decease of Professor Willson nothing had been done. The total amount in money and bonds in the fund, besides what is yet in the form of notes scattered through the church, is $23,113.00.

LITERARY INSTITUTION.

Rev. Joseph McCraken, who was appointed at last meeting Principal of Geneva Collegiate Institute, or the Freedmen's College, at Northwood, Ohio, reported that owing to difficulties that arose with reference to the girls' boarding house, of which they failed to get possession, he had not entered upon the duties of Principal.

The report was laid on the table until after the Board of Education would report.

Rev. A. M. Milligan, Chairman of the Board of Education, read the Report. It was to the effect that owing to the difficulties that had arisen between Rev. McCracken, the Principal elected at the last meeting, and the Secretary of the Board—Rev. McCartney—in consequence of which the former did not take charge of the school. The Secretary, authorized to do so in case of such an emergency, had had entire control and management of the Institution. Any further report would be from the Secretary.

Rev. J. L. McCartney, the Secretary, then read his report. The Principal elect had not taken his place, so that the management of the school had devolved upon the Secretary. The experiment of educating students irrespective of color together had proved a success. By their constant good deportment the colored students had gained universal esteem. During the year nineteen colored students have been in attendance. Of several of these the highest hopes are entertained. They have piety, talent, and rare eloquence. Others, not distinguished for talent are greatly esteemed for their gentlemanly and christian deportment.

The report expresses gratitude to God for the health of students and for their determination to prosecute their studies, and recommends that four or five of them be selected to be educated by the Church in the hope that through their instrumentality thousands may be converted.

The Board had not yet purchased the Female Seminary. Rev. N. R. Johnson, who had a lease on it for a term of years, had transferred his claim to the Board.

Statements had been publicly made charging "collusion" with a private member of the church against the Secretary. The charge had been withdrawn. The Board has approved of the Secretary's conduct in making provisions for the education of colored students, and in managing the school in the absence of the principal elect.

The report of the Board was recommitted to be completed.

The report of the Board of Church Extension was taken up. While under consideration, the hour for devotional exercises arrived, after which Synod took a recess.

AFTERNOON SESSION.

After recess various unimportant reports of committees were read and disposed of.

Rev. S. O. Wylie rose to say that Rev. J. M. Armour, who a few days ago we expected never to see on earth again, having been rescued from a fearful death on lake Ontario, in the burning of the steamer Wisconsin, was now present in Synod, and he moved that Mr. Armour be invited to give to Synod a narrative of his deliverance. Mr. Armour then responded to the call and gave a brief but touching detail as requested.

As the escape had been narrow, the sufferings severe, and the loss all baggage and clothing on board, on motion a collection, amounting to $572 00, was taken up, and, by the Moderator, presented in token of the sympathy of members and others present.

In expressing his thanks, Rev. Armour, who said he was taken wholly by surprise, alluded to his waning trust during the period of their peril, and added that he had learned that it is far easier to trust in God when there is none else in whom we can trust than at other times.

Rev. J. W. Shaw then led in prayer, giving thanks for the great deliverance wrought by the Almighty Preserver.

A MINUTE.

Rev. T. P. Stevenson read a minute on the late Professor J. M. Willson, which was adopted and ordered to be printed.

The Committee on Missions, Rev. A. M. McDonald, Chairman, presented their Report. Tabled for the present.

PROFESSORSHIP.

The order of the day, was then called up, and the Synod proceeded to the election, by ballot, of a Professor of Theology to fill the Chair made vacant by the decease of Professor Willson. There were three ballotings, resulting in no election. Adjourned to meet this morning, at 9 o'clock.

EVENING MEETING.

According to previous arrangement a public meeting was held at 7:30 p. m. on the subject of National Reform.

Rev. S. O. Wylie, of Philadelphia, was called to the Chair, and Rev. N. R. Johnson opened the meeting by prayer.

By request, Rev. T. P. Stevenson, the Secretary of the National Association, explained the object of the movement and gave a brief history of its progress. The Association aims to secure such amendments to the United States Constitution as will make it unequivocally a *Christian* Constitution—acknowledging God as the source of all power, Christ Jesus as Lord of Nations, and His will, revealed in the Bible, as the supreme law of the land. The Association proposes to agitate the question by every possible way—circulate petitions and memorialize Congress—and thus prepare the way for wider agitation.

Rev. H. H. George, of Cincinnati, who had been announced as one of the speakers, addressed the meeting at length. Of this address, and of those following, the Reporter took a full synopsis, but not in time for the press.

Rev. J. R. W. Sloane, of New York, Rev. H. P. McClurkin, of Ohio, Rev. J. S. Milligan, of Michigan, and Rev. Crozier, of Indianapolis, being called out, spoke with applause. The meeting adjourned at a late hour.

Meeting of City Councils.

A regular monthly meeting of City Councils was held on Monday evening, May 27th.

COMMON COUNCIL.

Members present—Messrs. Barnhill, Beck, Brush, Coursin, Ford, Hare, Hemphill, House, Jones, Mawhinney, McQuewan, McClelland, McGowan, O'Neill, Reed, Roberts, Robb, Seibert, Sloan, Tomlinson, Torley, Verner, Welsh, Steel.

The minutes of the previous special meeting were read and approved.

The President read a communication from the Ladies' Monumental Association, inviting the members of Common Council to attend the formal opening of the Monumental Fair this (Tuesday) evening.

The communication was received and the invitation accepted.

A communication was received from the City Controller containing a bill from A. Murdock, Esq., late United States Marshal, for costs in sundry cases, amounting to $599. Accompanying the communication was a resolution authorizing the issue of a warrant for the amount.

Accepted and referred to the Finance Committee with power to act.

Mr. Reed asked whether it was the intention of the Council to attend the Monumental Fair in a body.

Mr. Robb thought it was not likely that those who voted against allowing the firemen to compete for the hose carriage, as requested by the ladies, would wish to attend.

Mr. Reed and Mr. Hare stated that that matter had not lessened them in the esteem of the ladies.

Mr. Hare offered a resolution authorizing the removal of the fire-plug from the corner of Fifth and Grant streets to the east side of Grant street. Referred to the Water Committee.

Mr. Ford offered a resolution instructing the Committee on City Property to have a new roof put on the Independence Engine House. Adopted.

Mr. Hare presented a bill of Mackin & McCune for $278,94, for crossings on Logan street and Pennsylvania avenue. A resolution authorizing the payment of the bill from Appropriation No. 13 was adopted.

Adjourned to meet this evening, to attend in a body the opening of the Monumental Fair.

Jury Commissioners—New Mode of Selecting Jurors.

The fact seems to have been thus far overlooked, in the canvass of county officers, that the Legislature, at its last session, passed a general law (except as to Philadelphia) "for the better and more impartial selection of persons to serve as jurors." The following is a synopsis of its provisions:

TWO COMMISSIONERS TO BE ELECTED.

The act provides for the election, triennially, of two jury commissioners, the first to be chosen at the coming October election, for three years. They are not to be eligible for re-election more than once in any period of six years.

ONE OF EACH PARTY.

Electors can only vote for one person as a jury commissioner, the two persons receiving the highest number of votes to be declared elected—the object manifestly being to provide a commissioner from each of the political parties.

HOW TO SELECT JURORS.

The jury commissioners are required to meet with one of the judges of the courts, at the seat of justice, thirty days before the first term of the Court of Common Pleas, in each year, and proceed to select, alternately, from the whole of the qualified electors of the county at large, "sober, intelligent, and judicious persons," to serve as jurors in the several courts during the year, the names of the persons so selected to be placed (as heretofore) in the proper jury wheel, the same to remain locked and in the custody of the jury commissioners, the keys to be kept by the Sheriff.

DRAWING OF JURORS.

The law provides that the jury commissioners and the sheriff, or any two of them, shall draw from the wheel panels of jurors, grand and petit, in the manner heretofore practiced; but before proceeding to select or draw jurors, the jury commissioners must severally take the oath or affirmation prescribed by law to be taken by the sheriff and county commissioners.

THE NEW MODE

goes into operation after the first of December next, when so much of any acts of Assembly as make it the duty of the sheriff and county commissioners to draw jurors, will cease to have any force or effect. All acts in relation to the custody, sealing, unsealing, locking and opening of the jury wheel, and all acts imposing a penalty or punishment on the sheriff and county commissioners for anything done or omitted in relation to the custody or opening of the jury wheel and the selection of jurors, will remain in force, and apply to the jury commissioners and sheriff.

COMPENSATION AND PENALTY.

The jury commissioners are allowed as compensation two dollars and fifty cents per day, and four cents per mile circular from their residence to the court house. The jury commissioners shall take upon themselves to discharge the duties of their office under a penalty of one hundred dollars for each and every neglect or refusal to attend to the same, to be sued for and recovered before any Justice of the Peace as ordinary debts.

VACANCIES.

In case of inability, sickness or death, or any other unavoidable cause, or in case of neglect or refusal to serve, a vacancy occurs, the President Judge is empowered to fill the same.

Arrest of Thieves in Washington County—a Correction.

In our issue of Friday morning last was a communication with reference to an "Arrest of thieves in Washington, Pa." in which it was detailed that certain dealers in that place, having observed that they were losing goods at the hands of thieves to them unknown, had procured the assistance of a shrewd detective, by name Henry E. Ellsworth, who initiated himself into the confidence of the persons suspected and discovered the commission of a series of robberies of goods to a very great value. The facts with reference to this matter, as we learn from an official of Washington county, are that Ellsworth, instead of being the detective who had "worked out the case" for the benefit of his employers, was really the chief man in the perpetration of the offenses against them. He came to that place about six weeks ago and rented an old warehouse for the ostensible purpose of storing grain for shipment. He made no purchases of grain, however, save a very small quantity, and this fact, with other indications of his character, placed suspicion upon him, and after the goods were missed, search being instituted, two cart loads of stolen goods were found hidden under the floor of the warehouse, and a young man named John Sweeny with them as their custodian. Papers found in Ellsworth's possession indicated another young man named John D. Steep as an accomplice. All three are in jail and will have their trial this week.

After the regular business had been transacted, the meeting of the Association adjourned, whereupon the large assembly of citizens was organized by calling the venerable General Wm. Robinson, Jr., to the chair, and appointing Captain Samuel Kiddie Secretary.

At the request of the Chairman, Rev. J. B. Clark, D.D., stated the object of the meeting to be the election of officers for the ensuing year. The Reverend gentleman also urged upon the members and citizens that increased efforts should be put forth for enlarging the roll of membership, increasing the number and variety of books, &c. A. H. English, Esq., also made an eloquent and earnest appeal for more zeal and liberality, and made a strong argument in favor of such institutions. An agreeable episode was the presentation by Gen. Robinson to the Association of an interesting autograph letter of Thomas Jefferson, dated in 1798. The venerable Chairman also had his name recorded as a life member of the Association. Mr. Elder being called upon made a brief address. A lively interest for the prosperity of the Association seemed to pervade the meeting, and we doubt not a meterial enlargement of the list of members will follow.

The election of officers for the ensuing year resulted as follows:

President, John Brown, Jr. Vice President, A. H. English. Corresponding Secretary, William Hamilton. Treasurer, J. N. Davidson. Directors, J. B. Clark, Robert Lea, James Lockhart, Samuel Riddle, James McBrier, Robert Elton, James E. Stevenson. Auditors, Wm. Semple, W. W. Martin, James Caldwell.

Charge Against a Burgess.

Thomas Ford, a resident of West Pittsburgh, appeared before Alderman Lynch yesterday, and made information charging Lewis Auris, Burgess of the above named borough, with assault and battery. He also made information of a similar character against Philip Hess, constable of the borough, and another citizen named Cormick McGrady. Deponent alleges that the Burgess, in addition to his municipal duties, is also proprietor of a tavern, and that he, the deponent, went into the same on last Friday to get a drink and while away a few spare moments of his time in conversation; that while there the Burgess made an unprovoked attack upon him, knocking him down and kicking him, in which he was assisted by the constable named. He further alleges that McGrady followed him out of the house, knocked him down and otherwise abused him. The Burgess and constable waived a hearing and entered bail for their appearance. A warrant was issued for the arrest of McGrady.

GARDNER & STEWART.

Selling Stolen Goods.

Francis Lutcher, dealer in flats, barges, &c., made information yesterday before Alderman McMasters, charging Henry Panhorst with selling stolen goods. Last fall a man in oil city had a flat stolen from him, and on his first trip to this city found the same in possession of Luther, against whom he instituted proceedings. The flat was restored, but Luther was left minus the value of the same. He kept watch for the man who had sold the same to him, but did not discover him until yesterday, when the information, as stated, was made. Panhorst was arrested, committed in default of one thousand dollars bail, but afterwards brought into Court and released on his own recognizance to appear in Court this morning at nine o'clock, at which time a decision will be given as to whether a charge of the character named can be sustained.

Not the Articles Ordered.

Dr. E. S. Hanna made information before Alderman Strain yesterday, charging A. Milliken, a furniture dealer of this city, with false pretences. The Dr. alleges that he called at the warerooms of defendant, selected six chairs, paid fourteen dollars and a half for them, and ordered them to be delivered at his residence in Lawrenceville; that when the chairs came out, he noticed they were a far inferior article to what he had selected at the storeroom. He accordingly called upon Mr. Milliken and stated his opinion to him, asking at the same time, as he avers, that the chairs he had selected be sent out to him, or else that his money be refunded and those already delivered be taken away, to both of which propositions Mr. Milliken gave an emphatic no. Hence he brings suit to enforce the contract. A warrant was issued for the arrest of defendant.

Donations of flowers are requested at any time during the Fair. Admission tickets to the Fair can be procured at A. J. Rankin's drug store, St. Clair street; at Weyman & Bros'., Smithfield street, and at J. C. Mattern's drug store, corner of Smithfield and Third streets.

Fair to open this evening at 7½ o'clock.

Felonious Assault.

Yesterday morning Michael Sheets, residing on Rebecca street, Allegheny, made information before Mayor Morrison, charging John Loudon with assaulting him, at the same time flourishing a pistol and threatening to kill him. It appeared that both parties were at Troy Hill the previous day, and under the influence of bock beer got into a quarrel about a trifle. Loudon pretended that Sheets had found a beacon stud which he had lost. Sheets denied the charge. Loudon, whose suspicions were confirmed by a friend, rushed to Sheets' house, seized hold of him and drew the pistol. Some bystanders then interfered. Loudon was held in the sum of $500 to answer at Court.

POLITICAL.

A Worthy Candidate.

We do not desire interfering in the political contest of any county before nominations are made, but will be excused for speaking a few candid words in favor of our friend, Lieutenant Hugh Morrison, whose name we see presented for the office of Treasurer in Butler county. He was during our recent war a brave and intrepid officer, serving his country with honor and distinction in the noble old Roundhead Regiment. At the battle of South Mountain he received a serious wound, the mark of which now, in the palmy days of peace, should speak volumes in his praise, and commend him to the attention of all loyal Republicans. From personal acquaintance we are prepared to say that no better selection for the office can be made, he being an honest, faithful and upright gentleman, and the possessor of rare business qualifications which render him eminently qualified to discharge the important trust and duties of the position. We bespeak for him large and liberal support, and earnestly commend him to our Republican friends in Butler county.

For Coroner.

We make room for the following communication from citizens of Baldwin Township, urging the nomination for Coroner of a worthy wounded soldier:

MESSRS. EDITORS:—Without wishing to disparage the claims of other candidates for the office, we would respectfully suggest that our loyal and patriotic citizens give due attention to the claims of a valiant crippled soldier who aspires to the nomination of Coroner—Private Johnston G. West, Co. H, 62d Pa. Vols. He is a gentleman of liberal principles, patriotic, honest, intelligent, and in every way worthy of the suffrage of loyal Republicans. The son of a poor farmer, having only the legacy of an honest name, this worthy patriot should not appeal in vain for support. He volunteered in the early part of the war, was severely wounded at the battle of Gaines' Mill by a shot through the right thigh, and being left on the field, fell into the enemy's hands and was incarcerated as a prisoner for a long time in Libby Prison and Belle Island. He was paroled, and his wound having healed in hospital, he again took his position in his company as private. At the battle of Gettysburg he was in the thickest of the fight, and received a severe wound, from which he laid thirteen days on the battlefield. He was finally removed to Jarvis Hospital, Baltimore, and the surgeon in charge there found it necessary to amputate his shattered limb. And thus, in the holy cause of his country, he has been made a cripple for life. Republicans, redeem your pledge. Help those who helped our nation in its bitter hour of trial. Remember in your gift of offices to forget not the crippled soldier, private West.

CITIZENS OF BALDWIN TOWNSHIP.

Boy Found Drowned.

Yesterday morning, Thomas Tate and George W. Craig discovered the body of a boy floating in the Allegheny river, a few yards from the bank, opposite the Point Saw Mill, First ward, Allegheny. The boy was apparently about twelve years of age, and had on a white flannel shirt, brown pantaloons and leather suspenders. In the pants pocket were found two marbles, a spool and a little wrench. The body was considerably swollen; in many places the skin was peeled off, and on the head were seen several cuts, received probably in coming in contact with the heavy timbers. Coroner Clawson having been notified, held an inquest, and a verdict of "found drowned" was rendered. The body has not been identified.

Knock-Downs, &c., at Girty's Run.—There has been trouble of late among some of the workingmen at Girty's Run, if we are to judge from Alderman Strain's docket. M. A. Kettler made information yesterday against John Diebold and Joseph Diebold, charging them with assault and battery. A charge of a similar character was made by Wm. L. Kettler against John Diebold, and also one for attempted mayhem, in trying to bite off the forefinger of his right hand. William Mitchell lodged an information for assault and battery against John Diebold, alleging that John knocked him down and abused him. The parties are all engaged as workmen in the rolling mill at that place. Warrants were issued in each of the cases.

In the Wrong House.—Henry Bencher made information before Alderman Strain, yesterday, charging James B. Harshaw, Chas. E. Harshaw, and Wm. H. Bowman with assault and battery. The prosecutor, a grocer of this city, avers that he is a stranger here, and in going down from his store on Saturday evening, to his boarding house on Smithfield street, he happened to step into the wrong house, where the defendants caught hold of him and beat him severely. The defendants were held in three hundred dollars each, for a further hearing on Wednesday.

Difficulty in Lawrenceville.—Geo. H. Kiersteins appeared before Alderman Taylor, yesterday, and made information against Margaret Ott for assault and battery. The prosecutor alleges that the defendant, who is a resident of Sharpsburg, came to his residence, in Lawrenceville, on Saturday, and made an attack upon his wife, pulling her hair and otherwise abusing her. A warrant was issued for the arrest of defendant.

New Hose Carriage.—The new hose carriage for the Niagara Fire Company was brought over to their engine house on Saturday afternoon. It is from the shop of A. Workman & Co., of Allegheny City, of as light workmanship as the nature of the service for which it is intended would admit, and altogether reflects credit upon the manufacturers. It is painted vermillion, and presents a very fine appearance.

Assault and Battery.—Philip Keenan made information, yesterday, before Alderman Strain, charging David, Henry and Harvey Chess and Jacob Crum with making an assault upon him. The prosecutor was engaged in the tack factory of the defendants, and alleges that on Saturday last they attacked him, inflicting a wound on his eye together with other bodily injury. A warrant was issued for their arrest.

Charge against a Steamboat Captain.—Simon Furmer, formerly a deck hand on the "Fairplay," appeared before Alderman Strain, yesterday, and made information against Jack Crow, Captain of the same boat, for assault and battery. He alleges that the captain pitched into him, and, without any provocation whatsoever, administered to him a severe beating. A warrant was issued.

"Dr. Livingstone's Travels and Explorations in South Africa," are to be exhibited at Masonic Hall, during the week commencing Monday evening, June 3d. This magnificent work of art, so justly admired and patronized in the East, has been secured by the East Birmingham Baptist Mission Church. The proceeds are to be devoted to the liquidation of the church debt. 1t*

Attempt to Defraud.—Amanda Foster made information before Alderman Johns, yesterday, charging John Coulter with defrauding her out of three dollars. Amanda alleges that she went to Coulter's to pay him seven dollars, and that she gave him a ten dollar bill, when he refused to return the change. Defendant was arrested and subsequently discharged on payment of costs.

Arrival Extraordinary.—The *Journal* of Jersey City, says: A monster—not human however, but a gun of fearful dimensions, came into this city this morning from the Fort Pitt Foundry at Pittsburgh. Imagine, one hundred and sixteen thousand pounds, or fifty-eight tons of iron in one piece, with a little hole in one end to admit a ball weighing one thousand and fifty pounds! The cannon itself is twenty feet long, and when fired, which it will be when in place at Fort Richmond, will be apt to make more noise than any gun in the Hudson County Artillery.

The grand literary and musical entertainment under the auspices of the Philomathic Literary Association, last night at the Academy of Music, was a decided success. A large and fashionable audience was in attendance, and all were much pleased with the manner in which the performers individually and collectively acquitted themselves. The musical exercises and vocalizations, under the direction of Prof. Herman T. Knake, excited very general applause, and reflected the highest credit upon the abilities of the gentlemen who performed.

—Mr. Edwin Booth, returning to his lodgings at the South End on a recent evening, hailed an over-crowded horse-car. The driver did not stop, and Mr. Booth, with an agile step which one might imagine was something between the impetuous eagerness of Romeo and the fierce rush of Brutus, ran after the vehicle and jumped upon the platform, landing heavily at the same time on the toes of a stout individual, who with many other passengers were standing outside. "— and —," exclaimed the irate stout man, using expressions much worse than that of my Uncle Toby's which the recording angel so kindly blotted out of his books, "what are you about?" "I beg your pardon," said Mr. Booth. The stout individual recognized the voice of the great tragedian, and the angry glare of his face changed to a broad grin. "Why, it's Booth!" said he; "— —, Mr. Booth, you can stand on my feet all the way out, if you like!" Mr. Booth has had many more elaborate compliments paid to his genius, but none, we imagine, more earnest or more honest.

TUESDAY, MAY 28, 1867.

GROWTH OF PITTSBURGH AND ALLEGHENY.

During the last six or eight years the growth of these two cities and the adjacent boroughs, which constitute what, commercially, is known as Pittsburgh, has surpassed all former experience. It is not an exaggeration to estimate that within that period the population has doubled, and the accretion is still going on in undiminished ratio. One immediate and inevitable result has been the appreciation of real estate. This has been rapid and uniform. Prior to 1860 landed property was lower here than in any other city of corresponding importance in the country. Now it is dearer than in any other. Indeed, except in special localities in New York, property is higher here than there. Dwelling houses, of like grade, are decidedly cheaper in New York than here. Rents of dwelling houses are fifty per cent. higher here than at Philadelphia. The high price of real property, in fee and on leasehold, is a serious drawback to the increase of inhabitants and the prosecution of manufactures. But it is a hindrance for which there is no cure but time. In the long run the value of houses and lands finds its natural adjustment.

In view of the high rates demanded for building sites and the excessive prices of material and labor, it was supposed, at mid-winter, that comparatively little building would be attempted this spring. The fact is quite otherwise. Never were there more houses under way than at this moment. This is not so observable in the two cities as in the suburban districts.

Few first class dwellings have been erected within the limits of the municipality of Pittsburgh for some years past, and many residences have been superceded by stores, warehouses and factories. From the present moment within those limits the comparative number of dwellings will hardly be increased. Two causes contribute to this result. The demands of business for room are inexorable, and the augmenting dirt and smoke make families desirous of gathering up their penates and finding abodes in the suburbs. The first movement was across the river into Allegheny and Manchester. Of late the exodus has commenced from those places. All along the lines of the eight locomotive railroads centering here, suburban residences are multiplying. This movement reaches from ten to twenty miles out; so that it may be said under one aspect of the case, that the two cities are being turned out into the country. Hence it happens that while there are few streets here lined with palatial residences, there are ten elegant residences in the suburbs to one near any other city of like population in the United States. Whoever desires to find the domestic glories of Pittsburgh must search outside the town. The horse railroads, too, are extending far out, affording increased facilities for egress and ingress.

A number of the outlying boroughs will be increased the present year by several hundred houses each. It is really astonishing to go out and see the amount and magnitude of improvements. Nor does this movement towards the country lessen the demand for houses in the two cities. Every place where a family can be bestowed is full, and at rents which are seriously burdensome to men of small means. This prosperity is not evanescent. It is solid and enduring. While our people are a little slow; not given to dash and parade; they are remarkably sure and persevering. There is no tinsel, but substantial merit and power among them. They do not speculate on commodities other people have laboriously produced; they create wealth out of the raw materials found in nature. They do not toll the grist, but make grists for half the nation. This is the specialty; and it imparts a definite aspect to the two cities and the surrounding region. Vast work-shops; huge fires; begrimed, but earnest and intelligent workmen; accumulating wealth, the gains of the higher industries; and room for unlimited expansion in the future.

RESTORATION OF THE UNION.

If such a Restoration of the Union as is demanded by the general welfare consisted only or mainly in the overthrow and annihilation of the armies of the Confederacy, that result was reached more than two years ago. Something more than this is needful. The judgment of every man who has capacity for serious reflection upon public questions, and puts its to use, decides that it is needful to destroy the causes of alienation, to obliterate existing animosities, to create identity of interests and inspire oneness of feeling. In this way only, is it possible to make of our discordant population one nation. We may, indeed, hold the several parts of the Union together by military power, as England holds the conquered provinces of India, but that process cannot produce that solidarity which is essential to constituting a great and homogeneous nation.

Civil war does not necessarily tend to permanent estrangement. In multiplied instances in which nations have been rent by fratricidal strife, the discordant parts have ultimately been brought together again in the closest and most lasting unity. Such a consummation often requires considerable time for its development. But this is not the invariable rule. Time is a less element in the problem than a conviction that the equal good of the oppugnant forces requires they should settle their differences, bury the past, and for the future act in harmony.

Some of the principal causes of antagonism between the North and South have been removed by the sharp discipline of war. The local institutions of the two sections have become the same in kind, and will speedily approximate in quality. Commonly institutions have their root in the acceptance of certain ideas. The Southern people have had institutions of Freedom and Equality forced upon them, contrary to their ideas, and have now the task of discarding hereditary ideas and accepting new ones, congenial to the institutions under which they are henceforward to live. Such a transformation of opinion and sentiment, under ordinary conditions of mutation, would require a century or two; but in revolutions these processes are unmeasurably quickened. Already much progress has been made in several of the States in which the Emancipation Proclamation went into operation. The more enlightened classes, as a matter of course, soonest accommodate themselves to the transition. The less intelligent classes will follow, tardily, perhaps, but certainly. In a community, as with an animal, the tail always follows the head.

What can the people of the North do to help the unification of the Republic? By vast sacrifices and indomitable courage they put down the revolt, in a manner to elicit the admiration of the world. They conquered their enemies—the enemies of the Union. Are they equal to the harder task of subduing their own passions; silencing clamor for revenge, and seeking the things that make for peace? [illegible] are removed by two years and [illegible] the period of actual conflict. [illegible] have done immediately [illegible] of the rebel armies, [illegible] sense of propriety [illegible] civilized na[illegible] [illegible] would have [illegible]dient, are controlled. Mr. WILSON and Mr. KELLEY each addressed Southern audiences in towns remote from each other. They are both experienced in dealing with popular assemblies, are abundantly familiar with public questions, and fairly reflect the masses of the party with which they are identified.

Mr. HORACE GREELEY and Mr. GERRET SMITH made speeches at Richmond on the occasion of the bailment of Mr. DAVIS. They have been known for thirty years as unflinching opponents of slavery. Consequently few men were more cordially hated at the South than they. All through the war, however they may have dissented from particular acts of the government, every man in the nation knew they were radically on the loyal side. They represent extreme opinions. They represented such opinions before the war, and during its progress. What they were, they are now. Their Richmond speeches have been published. Whoever read them dispassionately, found in them no unmanly or unpatriotic concessions.

Here, then, we have two models of speeches, each from able and loyal men. Which of these two sorts tends most directly to beget and maintain that harmony which is indispensable to a true and salutary restoration of the Union? The question is not, which responds most sympathetically to the just indignation of the North, aroused by the conflict itself, or by incidents of it disclosing peculiar barbarism? That consideration has had its day. Another is now in order. How best shall the hurts of the nation be bound up and cured?

We do not favor a hollow and deceitful settlement. Nor yet a settlement based on hate and retaliation. What we desire is that the masses of the nation shall be made most speedily to see and feel alike. How else can genuine nationality be created and continued?

It is now settled that Mr. JEFFERSON DAVIS will not be tried and punished. After his releasement, with what grace or decency can the punishment of lesser leaders be demanded? It may, therefore, be regarded as determined that beyond the proscriptions decreed in the Military Government Law and the Constitutional Amendment, no punishment will be inflicted upon the leaders of the Rebellion. It may be that a generation hence, what is now generally deplored by the loyal men of the North will be viewed by their children with the highest satisfaction.

THE PHILADELPHIA PRESS is the ablest and best newspaper published in that city. It is prompt and enterprising in the collection of intelligence in all departments, sparing no expense in keeping fully up with the progress of events. Col. FORNEY, its editor-in-chief, is one of the very ablest political thinkers and writers in the country, never allows himself to be led into mischievous compromises of principle, sees clearly, feels deeply, does not doubt or hesitate, and never gives an uncertain sound. He is in Europe, and will enrich his columns with a series of pen-paintings of men and things at the Paris exposition and elsewhere.

The *Press* has so rapidly increased in popularity that a new eight cylinder HOE machine has recently been added to its working force, and, which was a difficult thing to do, its typography has been beautified. It is, in all respects, among the foremost journals in the country.

MR. DELEMAR'S census attracts considerable attention from the journals of the country. Some ridicule the idea of his having performed any valuable work for the country, while others maintain that several millions have been saved the treasury in providing for the 1870 census. The Newark *Advertiser* says: "To count thirty-four million and odd noses, without one of those noses smelling out what was going on; to enumerate a great nation—in fact the greatet nation in all creation—without telling a single soul about it, is one of the grandest achievements of this wonderful age!"

THE report of the Auditor of Public Accounts of Virginia, compiled from the returns of the commissioners of revenue, shows an aggregate of 124,792 white men, and 73,004 colored men, over twenty-one years of age. Alexandria has 1,859 whites, 746 colored; Fairfax, 1,509 whites, 323 colored; Faquier, 2,266 whites, 1,006 colored; Loudoun, 2,971 whites, 658 colored; Prince William, 1,067 whites, 224 colored; and Culpepper, 1,072 whites, 671 colored. The proportion of colored people in some of the southern counties is much greater.

A CURIOUS will case has been brought to light in a court in the interior of New York. A rich old farmer died and bequeathed a large sum to his daughter, providing she happened to get married to a Catholic Priest; if she did not marry a Priest, she was to get nothing. As celibacy is an all important vow with clergymen of that denomination, the girl's chances are very slim for fortune, and doubtless the old man wanted to cut her off, and feared to do so openly and above board. The practical joke will be decided unlawful in a court of justice.

THE New Orleans *Republican*, the new Radical daily, is out in favor of the material interests of the South, advocating the abolition of the cotton tax and the immediate rebuilding of the levees from the State and national purse. It concludes by taking the ground that the Republican party in Louisiana should immediately adopt these interests as prominent planks in the platform upon which it is proposed to stand in national convention.

THE Louisville *Journal* says: "There seems to be a likelihood that the Southern negroes will get so aristocratic in their feelings as to charge white folks fifty cent a smell."

Have the Democratic leaders discovered this in smelling for their votes? They have declared the odor sweet, and it would be a shame to have to pay for the nasal pleasure.

IT will not be denied that the negro is ingenious after the issuing of a political bulletin by a colored candidate for the State convention in Fluvana county, Virginia, who therein announces himself in favor of a low tariff, no taxes, plenty of money at the South, and cheap whisky especially.

AGRICULTURAL.

Work for the Season.

CORN.—If the corn is not all planted yet, the sooner it is done now the better. If you have plenty of manure spread it on the land and plough it in, and then put a little in the hill to start the corn; some use super-phosphate, or guano for this purpose. If you are obliged to plant late, use the smaller sorts. Sweet corn may be planted so as to secure a succession for the table.

BEANS.—It is now fully time to plant beans, for before they are up all danger of frost will probably be past. White's Early and Mohawk are good bush beans. For pole beans, the Lima, Seiva, Horticultural, and Cranberry are good. Common white beans for winter use may be planted among the last of crops, and generally do well even on poor soil.

CORN FODDER.—Don't forget the importance of this crop to help out during the weeks of summer when the feed is short in the pasture, and also for curing for winter. Sweet corn produces the best fodder, but other corn will answer if that cannot be obtained. Some sow broadcast and harrow or cultivate it in, but a better way is to sow in drills.

ROOT CROPS if not already sown should receive attention at once. The soil should be deep, well manured, and thoroughly pulverized. The drills should be from twenty inches to two feet apart. Ruta Bagas and Turnip beets for winter use may be sown later. It is well to soak beet seed before sowing. Sow all these seeds with a machine to save time.

CABBAGES.—The seed may be sown the last week of May, but will do in favorable seasons if sown a week later. Drumhead and Savoy are the best for market. The latter for home use. The Red Cabbage for pickling.

CELERY.—If you are fond of this plant save a piece of ground for it—nothing better with your Thanksgiving turkey.

CUCUMBERS.—These may be planted the last of the month in hills four feet apart. The White Spine is one of the best.

MELONS should be planted about the same time as the above, and about the same distance apart. The green flesh is one of the best. Black Spanish and Mountain Sprout are good varieties.

LETTUCE may now be sown, and so on until warm weather, for family use.

RADISHES.—The same should be done with this crop, frequent sowing for market or home use.

SQUASHES should be planted the last of May, and the "marrow" may be as late as June, and give good results. Put the hills six feet apart, and manure well. They will mix badly if planted near other varieties. The Hubbard, Boston Marrow and Canada Crookneck are the best.

TOMATOES can be transplanted from the hot bed to the field, as soon as danger of frosts is over. Don't plant the free growing varieties too near. It is well to mulch them by-and-by.

CAULIFLOWER.—This is one of the best of vegetables. It requires good culture in a rich soil. There is no difficulty about raising them if good seed is obtained. The Early Paris is one of the best varieties.

WEEDS.—Don't forget to fight the weeds. See that all the chickweed, shepherd's sprout, witch grass, sorrel and weeds that make their appearance early are dug out, especially from among the strawberry beds, which should be thoroughly weeded before they begin to blossom. Hoe the early peas and stir the soil about them: nothing better to hasten their growth.

RHUBARB.—This should always be pulled, not cut. Take no crop from plants set this year. It is a very valuable vegetable.

SWEET HERBS are easily grown, and useful in every household. The seed should receive but a slight covering. It should have been started in April or early in May, and transplanted, but it may still be sown and do pretty well. Sweet Marjoram, Summer Savory and Sage are the best.

FLOWER SEEDS may be sown any time now, though it will be better if the plants have been started in a hotbed and are transplanted; cover all small seeds lightly with well pulverized earth.

BEDDING PLANTS, such as Verbenas, Petunias, Feverfeus, Geraniums, Lantanas, and many others should now be turned out into the ground. Dahlias should be planted,—and by June finish all the arrangemanss for a good flower garden. Plant a garden, if it be only a small one; it adorns the home, and cultivates the taste for the beautiful.

The Wheat Midge or Wheat Fly.

On the 18th inst., Mr. C. J. Hiestand, an intelligent farmer of Mount Joy township, brought me some earth containing the larvæ of the "Wheat Fly," sometimes erroneously called the "Red Weevil." Mr. H. obtained this earth from a low, flat portion of a wheat field on his neighbor's farm; a field in which wheat was also grown last season. After a heavy shower of rain, which overflowed this low part of the field, when the waters had subsided, he found the smooth earth covered with a yellowish deposit, but having no magnifying-glass with him, and his natural sight not being strong enough, he could not determine what the nature of this yellow substance was. Returning to the field the day after the rain, Mr. H. was surprised to find that the yellow substance he saw the day before had entirely disappeared; but on closely examining the surface of the earth, he found it punctured with millions, perhaps—at least with unaccountable numbers—of small holes, as though the smooth clay had been thickly pricked with a pin. On digging down half an inch below the surface, he found any number of the little yellow objects which he was in pursuit of, and which, on examination, prove to be the larvæ of *Cecidomyia tritici*—the destructive wheat fly. With those in my possession I produced the same effect witnessed by Mr. Hiestand. On saturating the soil with water, it brought all the larvae to the surface, but, after the water had subsided, they would all penetrate the soil and go below, leaving the surface like a finely cellulated sponge.

This *fact*, developed through the instrumentality of Mr. Hiestand—or, rather, confirmed by his discovery—settles a heretofore mooted question: That is, that the larvæ of the wheat fly remains a larvæ in the earth of the field where it was born, from the middle or end of June in one year, until the 18th or 20th of May, at least, in the next year. Now what does this fact suggest to the intelligent farmer? Why, clearly this: That he ought to institute an examination of his wheat fields during the month of May—say from the 10th to the end of the month—and if he finds these orange colored larvæ in the soil—which he will by the aid of a common pocket magnifier, and digging from a half to an inch and a half below the surface—in any considerable numbers, then let him *turn it down with a deep sub-soil plow.* If there is only one acre of ground in Mount Joy township that is as thickly permeated by the larvæ of the wheat fly as the small quantity of soil brought to me by Mr. H., enough flies may breed from it to inoculate the whole township, if not half of the county.

It would be a nice question to determine how these insects can subsist in the larva state, and be subjected to all the various changes of heat and cold, wet and dry, for the period of nearly a whole year. This fact would seem to imply that there is no other remedy than the one which has been suggested, because any application that would destroy the larvæ would also destroy the wheat, and might also unfit the soil for a subsequent crop. If the plowing down seems to be necessary, from the presence of these larvæ in the soil, a crop of corn or late potatoes may still be raised upon it.

But many of these larvæ do not reach the ground, but remain in the husks of the grain, and are carried to the stack and the grain mow. According to the experiments of Dr. Asa Fitch, they do not die in the grain husks, but, on the contrary, on the application of moisture they revive again. I have on various occasions rubbed infected wheat-heads until they were completely divested of their grains, and found afterwards that the larger number of the larvæ remained in the chaff. It has long been my opinion that the chaff may pass through a threshing machine and a winnowing mill, and the larvæ or pupa be still in it, comparatively uninjured. A portion of this chaff is fed to cattle, but a large portion reaches the barn-yard, and is from thence hauled to the fields. When *known* to be infected, it ought to be burnt.—*Lancaster Express.*

Health of Cows.

Good health of domestic animals is always a matter of primary importance.

As bad health transmits a tendency to disease in the offspring, it is important that every kind of animal we desire to continue on our farms should be kept vigorous and healthy.

As domestic animals are a source of human food it is a matter of great importance to preserve them in a healthy condition. Diseased meat carries its qualities into the stomach of its consumers. It is a serious objection which vegetarians urge against the use of animal food, that artificial circumstances in which animals live, and the bad treatment they receive, renders them unhealthy. As an unhealthy animal does not consume food to as good advantage as a well one, and it is economical to avoid disease.

As comparative misery and discomfort accompany disease, it is human as well as economical to see that the animals under our care enjoy as far as possible their creature comforts.

Each of these circumstances is a sufficient reason for guarding with scrupulous care the health of animals we feed; but when we derive milk from animals, it is doubly important that they are to be kept free from every objectionable taint. A sickly cow not only yields a diminished profit, but she yields sickly milk, and sickly in a higher degree than her flesh.

If a cow eats anything that has a strong or disagreeable odor, it appears in her milk.

If she eats anything medicinal, it comes out in her milk.

If she is feverish, her milk shows it.

If she has sores about her, pus may be found in her milk.

If she is fed upon decayed or diseased food, her milk, since it is derived from her food, will be imperfect. It is as impossible to make good milk from bad food, as to make a good building from rotten timber.

If there is anything wrong about her, it will appear in the milk, as that is an effective source of casting filth from her own organism.

These facts should at all times be well impressed upon the minds of the dairyman, more especially at this season of the year.

Closely confined in their narrow stalls through the long winter, where the air is not always fresh and pure, nor water and exercise always had when desired, nor their food always free from foul medicinal, weed as thistles, daisies, white top, etc., cows are very likely to vary from a perfectly healthy condition; spring cheese will be faulty enough, do the best we can; that every dairyman knows. The health of the cows should not, at any rate, be allowed to become a cause of deterioration. Green food should now, if it has not before, alternate as often as possible with the dry; for this purpose, beets, carrots, turnips, potatoes, cabbages, parsnips, and apples are valuable.

Ventilation and watering should be promptly attended to, and salt, and meal made by pulverized burnt bones, should be kept where daily access can be had to them, if desired, nor should their strength and flesh be allowed to fail for the want of a sufficiently nutritious diet. The best flavored butter and cheese cannot be made from cows that are badly fed, or ailing, or poor.—*Little Falls Dairy Farmer.*

BE ON YOUR GUARD

Against the imitations and counterfeits of HOSTETTER'S STOMACH BITTERS, with which the PIRATES who make DISHONORABLE LIVING, by preying upon the sick and suffering, are now endeavoring to flood the markets of this country. Whenever these POISON-MONGERS are discovered they are immediately prosecuted by the proprietors, who expend thousands of dollars annually in tracing them out and bringing them to justice. Within a short time injunctions have been obtained in the Courts of the United States against a number of individuals and firms, and suits are now in progress against several others, all of whose names will be given to the public. But in spite of the utmost vigilance and activity of their detective agents, the undersigned are of course unable to protect the public entirely against piratical imitations of a Standard National Tonic, everywhere in request, and as readily convertible into cash as United States Bonds or Treasury Notes. They, therefore, as a measure of precaution, direct attention to the fact that a finely engraved label, representing St. George and the Dragon, and a beautiful proprietary stamp, bearing the official endorsement of the Government, appear on every bottle of the genuine BITTERS. The article is further authenticated by a miniature note of hand, with the signature of "Hostetter & Smith," to counterfeit which is a *state prison crime.* The true BITTERS are sold *in bottles only, and never in bulk.*

HOSTETTER & SMITH.

PINUS CANADENSIS.

A tree which is abundant in Canada, Nova Scotia, and the more northern parts of the New England States, and is also found in the elevated and mountainous regions of the Middle States, and abounds in medicinal virtues. Dr. Swett, of Boston, has prepared a medicine from the sweet inside bark of the pine tree, called POLAND'S WHITE PINE COMPOUND, which is one of rare value in all debilitated states of the kidneys. It acts like a charm in all diseases of mucous membranes, enabling them to regain their lost tone and energy. It will be found well adapted to all those diseases, where Buchu has been tried and failed. It is likewise well suited to chronic coughs, and an infallible specific for old and debilitated cases of asthma. Many persons who at first only took a bottle of this medicine, to try, afterwards came back and got a dozen, or half dozen, which effected radical cures of diseases of the bladder and kidney of years standing.

Diabetes, a disease that has been looked upon as among the incurables, is immediately relieved by it. Notice the certificate of Asa Goodnue, published some time ago.

The *United States Dispensatory,* speaking of the pine, says: "It is prescribed in leucorrhoea, gleet, and other diseases of the urinary passages; in piles and chronic inflammation or ulceration of the bowels, in chronic catarrhal affections, and in various forms of rheumatism." It is exceedingly valuable in all gravelly affections, bloody urine, and where there is red and white sediment. It can be taken without interruption to one's usual avocations; and instead of sickening, produces a bracing, healthy power of endurance and vigor. Price, $1 per bottle; six for $5.

Ask for POLAND'S WHITE PINE COMPOUND. For sale by the gross, dozen or single bottle, at DR. KEYSER'S Great Medicine Store, 140 Wood street.

Best Standard Soap,

But in addition there has been a new and valuable chemical compound added in the finish, by which all that hardness so peculiar to other soap is entirely removed. The coarsest as well as the finest fabric can be washed with it and remain soft and glossy as new. One pound is equal to three pounds of ordinary Soap. And here lies its chief excellence over all other soap; it is simple, requiring no extensive or complicated direction for using. For bathing purposes it is certainly a luxury, leaving the skin soft and healthy, and can be safely used in washing the tenderest infant. For all cleaning and cleansing purposes it is without a rival.

Believing it to be SUPERIOR, and that it will be duly appreciated by a discriminating public, I desire it to stand upon its merits alone.

Before Hon. Moses Hampton.

Robert McClinton vs. Pittsburgh, Fort Wayne and Chicago Railroad Company and James Gilleland vs. same. Action to recover damages in the sum of two thousad dollars. The damages are alleged to have been caused by a flood, in 1865, to a house in Ohio township, owned by McClinton and occupied by Gilleland, originating mainly from the fact that a culvert on defendants' road was of insufficient capacity to carry off the water, which, in consequence, overflowed the garden, and cellar and first floor of the house, leaving a deposit of mud and sediment to the depth of several feet. On trial at adjournment.

The Soldiers' Monument—Opening of the Great Fair To-Night—The Attractions.

For months past, as all know, the work of preparation for the erection of a worthy monument to the memory of deceased Allegheny county soldiers, has been pushed vigorously forward by willing and able hands. The ladies and gentlemen of the Monument Association have worked cheerfully and unceasingly to bring to this honorable determination the military record of our noble county, and to-morrow evening the practical culmination of their worthy labors commence. The success of the fair, which will begin then at City Hall, will decide whether these willing workers have been mistaken in believing and acting in the belief that the patriotic men and women of Allegheny would not let go unhonored the heroes she sent out to their death. The labors of the Association have been extended and exhausting. They have prepared the way perfectly for success. To-morrow evening they will have virtually terminated. More than the Association have done they scarcely can do. Their work has been to furnish the opportunity for the people to work. They have placed that opportunity in a noble manner before all, and now it remains to be seen whether the people will use it. The success or failure of the monumenta project now remains entirely with the people of the county. It is for them to say, and to say at this fair, whether our dead braves shall have a commemorating monument, and whether it shall be a worthy or an unworthy one. They will accept the responsibility in the true spirit, and will answer nobly and substantially the appeal made to them. It would be a shame to believe otherwise.

The preparations for the fair are in an advanced stage of completeness, and give promise of great beauty and perfection. Busy hands are hard at work wreathing evergreens, twining circles and festoons, placing symbols and armaments in due arrangement, making rustic barricades, constructing tables, and doing the endless work of preparation which will reach such beautiful completeness to-night. On entering the hall, near the door, and in the centre of the hall, is the charming pavilion and floral temple. This is a beautiful structure, the pillars and graceful roof being masses of evergreens. It will be a bower of beauty. Choicest flowers, in boquets and wreaths, singing birds in cages, curious fishes and aquatic plants in aquaria, and other similar prettinesses, will be here.

A short distance beyond this, as we go down the center of the hall, is a charming rustic fountain. This is enclosed by a beautiful rustic railing, and the graceful white basin rises from a pile of rock work and mossy wood. A large selection of choice and beautiful plants will beautify the space inside the railing, and will make the glittering fountain the center of a little garden of sweets. Directly above the fountain is suspended an airy chandelier, which is apparently nothing but a series of evergreen festoons, which will support a score or two of shining lamps. This beautiful fountain and its accessories have been the work of Capt. J. H. Elliott, the landscape gardener.

Beyond this again, is the beautiful raised platform, where is to stand the splendid hose carriage manufactured for the fair at Philadelphia. This has been fully described, and will be again before the conclusion of the fair. It will certainly be competed for by the Friendship and Hope of Allegheny, and by the Relief of this city. It is proper to say that this carriage had been ordered for the fair before the action of the Councils forbidding the fire companies to compete in such contests, and therefore the committee had not the remotest intention of stirring up ill feeling towards the City Fathers.

At the right of the entrance door is booth No. 1. This booth has not yet been assigned. Adjoining this, No. 2, is a variety booth, where will be located the "grab bag," and other lively attractions, under charge of Mrs. Cote. No. 3, next to this, is appropriated to the Third United Presbyterian Church, Rev. Dr. J. G. Brown. No. 4 is under the charge of Rev. Richard Lea, of Lawrenceville. No. 5 is in the hands of the First Presbyterian Church, Rev. S. T. Scoville, while the Third Presbyterian Church, Rev. Herrick Johnson, has the adjoining one, No. 6. Christ M. E. Church, Rev. Dr. Morgan, has been assigned to No. 7. Booth No. 8 is devoted to the display of the magnificent dressing gown, to be voted to the most popular man. No. 9 is an independent booth, under the charge of Mrs. General Pearson. The ladies of Manchester have No. 10, and Mrs. Shaffer and Mrs. Hillerman No. 11. Another independent booth, No. 12, the last on the right side of the hall, is a telegraph office, where fun will abound.

The platform at the right end of the hall will be occupied by the Subsistence Committee. We can speak more knowingly of their arrangements to-morrow, but we can assure our readers they will be complete, for when were they otherwise! At the left of the platform are the refreshment tables, and in front of the platform on the right, is the space allotted to the Soldiers' Home.

Commencing at the left of the stage, booth No. 13, under charge of Captain W. B. Cook, is devoted to the display of war relics, and many very valuable ones will be exhibited. No. 14 is a variety booth, under the charge of the ladies of Allegheny. No. 15 is an express office. All lovers of sport know what to expect here. At this place, also, will be sold, on commission, articles turned over from the exhibition of the blind. No. 16 is the space allotted to the magnificent chair, now at T. B. Young's, on Smithfield street. This will be presented to the Commandant of the Post of the Grand Army of the Republic receiving the highest number of votes, and will be retained in the organization. The ladies of Mansfield have the adjoining booth No. 17, and the ladies of the Ninth ward, No. 18. The handsome double booth, Nos. 19 and 20, has been assigned to the ladies of Shadyside, who will fill it most creditably. Two ladies of the Executive Committee have charge of No. 21, and will make it a miscellaneous booth. No. 22 is assigned to the beautiful prisoner's chest which we have described, and which is under the charge of Mr. W. W. Ward. No. 23, the last, is another telegraph office, connecting with the first near the stage. All the booths are very handsomely decorated and arranged. The articles designed for each will be placed in them to-day.

We may add here that the very best shell boat that M'Kay, the New York builder, can construct, has been ordered, and will be on exhibition to be competed for by the friends of Brown and Hamill. Hamill has consented to the arrangement, and Brown has been telegraphed on the subject, but has not responded yet.

Hon. J. K. Moorhead has signified his acceptance of the invitation to deliver the opening address this evening, and everything promises a most brilliant success. Let the people do their share, and all will be well.

Birmingham Council.

A special meeting of the Birmingham Council was held on Friday, the 24th inst. Members present—Messrs. Ihmsen, Welker, Wallace, Maloney, Zinfell, Kerr, McIlwaine and Burgess Salisbury.

The Burgess stated that the meeting had been called at the request of the President of the Monongahela Water Company, and submitted a communication from him protesting against granting the Pittsburgh and Birmingham Passenger Railroad Company the privilege of laying a double track on Carson Street. The communication stated that in case a double track was laid on said street, it would run over the plugs, stop valves and main pipe of the company, which they contend would embarras and interfere with the company in repairing the mainpipe.

Mr. Stengel, engineer of the Water Company, being present, corroborated the statement made in the communication.

Mr. F. L. Ihmsen moved that the communication be accepted and approved. Amended by Dr. James Kerr, that the communication be accepted and filed. Amendment adopted by the following vote: Yeas—Kerr, Weiker, Maloney, Zinfell and McIlwaine. Nays—Ihmsen and Wallace.

Mr. McIlwaine moved that when Council adjourned, that it adjourn to meet on Tuesday next, and that the President and Engineer of the Monongahela Water Company, and the President and Superintendent of the Birmingham and Pittsburgh Railway Company, be invited to appear before the Council on that evening. On motion adjourned.

House and Sign Painting.

Among the painters who have long and successfully carried on the above business in our city and who have succeeded in gaining a large and widely extended patronage, is Mr. John T. Gray, No. 54 Hand street. Always performing contracts faithfully and creditably, he has made quite an enviable reputation in his business, and now holds the custom of many of our most prominent business men and citizens. He uses in his work nothing but the very best quality of materials, and in every job warrants perfect satisfaction. He is a practical painter himself, and employs none but the very best of mechanics. He attends to the exterior and interior painting of houses, ware-rooms, offices, &c., and devotes special attention to ornamental and decorative painting of all descriptions. Signs are neatly and promptly painted in the modern styles of the art. His rates are very reasonable, and we cheerfully commend him to the patronage of our readers. Remember his office is at No. 54 Hand street, where orders for painting, graining, glazing, and gilding may be left for proper attention.

Children's Fine City Made Shoes.—A large and complete assortment of Lasting Kid, Glove Kid, Morocco Balmorals, Gaiters and Slippers for misses and children, at unusually low prices, at the Emporium, Nos. 55 and 57 Fifth street. SMITHSON, PALMER & CO. *

Gave Bail.—Martin Logan, committed on the 15th inst., by Justice Ammon, to answer a charge of assault and battery, preferred by J. E. Conklin, was released on bail yesterday.

A Revolution in the Culinary Department.

Yesterday at the Merchants' Hotel we partook of a most excellent and elegant dinner, the materials of which, meats, vegetables and pastry, were all cooked at the the same time, in the same little tin vessel. The result was, as we have said, a most capital dinner. The magical instrument by which this was accomplished, is Zimmerman's Patent Steam Cooking Apparatus. This is a tin cylinder, in two or three compartments.

The bottom is merely a tin pan pith perpendicular sides, and a copper bottom to set on the stove. This is partially filled with water. On the top of it is placed another tin cylinder with double sides. The bottom and inner, or inclined sides, are perforated. The outer walls are perpendicular, and without holes. In this were laid together, potatoes, onions, parsnips, asparagus, beef stake, vell cutlet, pork steak, ham, sausage, bread pudding and rice pudding. Sufficient of these for twenty-five men were cooked in forty minutes. All came out in a state of perfection, and no article tasted of the rest. A light cover fits on top of the steamer, so that no odor escapes into the room. The steam from the cooking viands condenses and runs through the perforated inclined sides to the reservoir beneath, where it makes a capital soup. The unanimous verdict of those who tasted the affair to-day was—"Perfect." Mr. George Lawrence, stopping at the Merchants, is the agent for this State. Messrs. Roberts & Sherratt, the well known dealers, No. 61 Smithfield street, have specimens on exhibition, and have already received several orders for the manufacture of the apparatus.

It is destined to have large sale in this neighborhood, and is an invention worthy of adoption by all families.

New Straw Goods.—Another consignment of new styles fashionable goods, comprising Ladies' Sundown and Gents and Boys' Leghorn, Canton and Panama Hats, at private sale at auction prices, at Smithson, Palmer & Co's Emporium, 55 and 57 Fifth street. *

Surety of the Peace.—Joshua Lee made information against Charles Ball yesterday, for a breach of the peace. Both are colored men and residents of the city. Defendant had made a similar charge on Saturday against Lee. Neither need stand in awe of the other, as both have given bonds to preserve the peace.

Suspenders, Neckties, Pocket Books—A general assortment just received on consignment, and must be disposed of regardless of cost, at the Emporium, 55 and 57 Fifth street. Smithson, Palmer & Co. *

Released.—George Crawford and Celia Burns, employees of the Revere House, who had a difficulty last week and were both committed to jail, were yesterday released on giving bonds for their appearance to answer the charges in Court.

Clothing, Traveling Bags, Umbrellas and Albums, at the Emporium of Smithson, Palmer & Co., 55 and 57 Fifth street. A large stock, cheaper than ever. *

We are indebted to Mr. Henry Miner, 71 Fifth street, for a valuable little article for slate pencil sharpening. It is worthy a trial.

Blacking Brushes and Blacking.—An immense lot—cheap, at Smithson, Palmer & Co's, 55 and 57 Fifth street. *

FINANCE AND TRADE.

OFFICE OF THE PITTSBURGH GAZETTE,
MONDAY, May 27, 1867.

The New York stock quotations to-day, as received by Mr. P. R. Mertz, were as follows: Gold, 136⅝; Eighty-one bonds, 111⅝; Five Twenties, 1862, 109¼; do 1864, 105; do 1865, 106⅜; 1865 consols, 108; Ten Forties, 99⅛; Seven Thirties 106@105⅝; Michigan Southern Railroad, 66; Cleveland and Pittsburgh, 73½; Pittsburgh, Fort Wayne and Chicago, 9[illegible]; Erie, 58⅜; Chicago and Rock Island, 87⅛; Chicago and Northwestern, 31⅝; do preferred, 5[illegible]; New Central, 97⅝; Reading, 102¾.

Gold opened at 137, declined to 136⅝, but was firm after board at 13[illegible]. There is a general desire to see gold lower, and merchants who rely on exchange and gold in their transactions are shy in buying; but, the tone of the market is very strong, and the slightest pretence for a rise would send the premium higher than it has been for some time. The scare of cotton bills is by no means over yet, and doubt and apprehensions prevail as to the future. The prospect of good crops sustains the hopes of the most timid and most easily despondent business men. Governments, in sympathy with the decline in gold, are lower, and there is less disposition to buy, and round lots are offered at the outside quotations. Seven Thirties are still lower to-day than Saturday. The stock market is lower but steady, and quotations are well sustained. The money market works very close.

Closing quotations received by James T. Brady:

—The *National Intelligencer* states, upon apparent authority, that the United States Government has no security whatever for making good its claims against the firm of Fraser, Trenholm & Co., of Liverpool, late Confederate agents, as the matter of their failure is now supposed to stand. The suit of the government for property, munitions, cotton &c., remaining in the hands of this firm on account of their agency for the Confederacy, are simply pending in the British courts, and it is declared that they have given no bond to pay the United States claim in case it should be legally established. Southern cotton factors are said to be largely losers by the failure.

The New York *Post* says the rumors, though authoritatively contradicted, of the failure of the firm of La Fayerre & Bro., of New Orleans, have been circulated here this morning, and have helped to produce the prevailing depression. This effect has also been augmented by exaggerated statements of the losses of our dealers in foreign exchange by the suspension of Fraser, Trenholm & Co. This firm is believed to have assets to the value of three to four millions of dollars. The sterling bills of exchange afloat are said not to exceed £350,000.

—An eastern exchange says: There are heavy speculations in United States bonds going on in Wall and State streets, and we are inclined to think that the "bulls" in this market are on the right track. This class of operators are buying boldly. Governments are easily carried to almost any extent, by parties of comparatively moderate means in these days. Both banks and private capitalists stand ready to lend money at six, upon pledge of government stocks at par. Distrust of mercantile paper increases, and many of our shrewdest men of money are coming to the conclusion, for the first time in their experience, that United States stocks are the safest and cheapest thing in the market.

—The New York *Tribune* says: The August Seven Thirties are fast passing into long bonds, and at their maturity few will pass into "debt matured and not presented for payment." It may as well be understood that all Seven Thirties not presented for funding at maturity, and all compound notes not presented at maturity, will take this direction and interest cease upon them. The Assistant Treasurer is now ready to pay the compounds at par and accrued compound interest to the date of presentation, and not at their face value at maturity. The funding process in all its details is proceeding with eminent success, and there is no reason to doubt that prior to maturity any currency obligation bearing interest will pass into long bonds.

—It has been stated that the financial situation will render a July Session of Congress necessary, but a correspondent from Washington, writing with an air of authority, says there is no foundation for such report. The current receipts of the Treasury are less than they were a year ago, but not materially below the estimate of last December. The drafts upon the department are large, but are met without difficulty. The payment of bounties is a heavy item, and the expense of the Indian campaign [illegible] not anticipated. The Secretary expects no trouble from either [illegible] however. No one has had the least authority from him for saying that the department is likely to be embarrassed, for he is very confident that so far as the Treasury is concerned no further legislation is needed till next winter, though no great reduction of the public debt is probable.

—A letter from New Orleans to an officer of the Treasury Department says that in the recent run on the City National Bank, that institution paid in two days $610,000 out of $675,000 on deposit. The examiners of the First National Bank of that city consider its assets sufficient to pay all the debts of the bank. The stockholders, under the new direction, have decided to resume business as soon as the Government permits. The statements concerning General Herron's connection with the bank are untrue and malicious.

Boston Wool Market.

BOSTON, May 25.—The wool market has been fairly active during the past week, considering the prevailing dullness in other kindred branches of trade. Of course, the current wants of consumption are nothing like what they would be if goods were selling freely, and manufacturers were getting their money back which has been tied up in their accumulated products. But such as they are, these wants are being quietly supplied at about previous rates for all grades of staple.

Buyers and sellers appear to have a good understanding with each other. The former do not try to break down prices, nor the latter to force them to a higher range. They both appear to be satisfied that the other is doing as well, and acting as liberally, as he can under the circumstances; and hence the wool trade, though moderate, moves on harmoniously, and without any unusual jar or friction of the machinery. As a natural result of this state of things, the wool sales, for some time past, have been made at very uniform prices.

The prospects of the new clip will also have something to do with the closing out prices of old wool. If the former were likely to open at high figures, with a speculative demand, the balance of old staple would doubtless be bought up with avidity and at very full rates. But the new crop, at a moderate estimate, will exceed in quantity that of 1866, by 15,000,000 lbs and will be neglected by speculators, in view of their past unfortunate experience, unless it can be bought at very low rates, say at from 40 to 50c for the various grades and growths of different States. Moreover, the new clip is likely to come forward in good condition, since unusual pains have been taken to impress upon growers the importance of care in the handling and preparation of this fleeces, both [illegible] and the consumers interest. [illegible] for the week have been fair [illegible] lbs at a range of 45@ [illegible] for the various

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE,
MONDAY, May 27, 1866.

The week does not open up very auspiciously for business if to-day can be taken as a fair criterion. There is, of course, a regular demand for most, if not all, of the leading commodities of trade, but as both dealers and consumers are restricting their purchases to the lowest possible limit, there are but very few round lot operations to report. The demand for Flour has fallen off materially within the past few days, and there is less excitement in Grain.

GRAIN—Wheat is quiet—no stock except what is held by millers, and even that does not amount to much. Oats firm, with considerable inquiry, but unchanged; may be quoted at 70c to 71c, on track, and 73 to 74c, in store. Rye is in demand at $1,70, and but little offering. Corn is quiet and unchanged; prime Shelled may be quoted at $1 to $1,05. Nothing doing in Barley.

FLOUR—Is very dull and weak, the demand being restricted mainly to supplying the wants, and prices are tending downward. We continue to quote standard Spring Wheat at $14,50 to $15; Winter Wheat at $15,50 to $16.50; and fancy brands at $19 to $20. Rye Flour quoted at $9,50.

PROVISIONS—The demand is pretty active and improving, which, as we have before stated, is in consequence of the extreme prices of fresh meats. We continue to quote at 9½c for Shoulders; 11¾ to 12½c for Ribbed and Clear Sides; 15¼ for Plain Sugar Cured; 14c for Plain Hams, and 16½c for Canvassed Sugar Cured. Sale of 8000 pounds country Meat at 8½c for Shoulders; 10c for Ribbed, and 11c for Clear Sides. Lard, 13 to 13½c; Dried Beef, 22½ to 23c, and Mess Pork, $23 to $23,50.

BUTTER—The market is quiet and unchanged—arrivals falling off slightly, but the supply is fully equal to the demand. Sales at 15@18c for prime to choice fresh Roll.

EGGS—The arrivals are again increasing, but as yet, prices remain unchanged at 19@20c for fresh packed.

HAY—Prime Hay is in steady demand, while common is almost unsaleable at any price. Sale of 1 car medium at $22; 35 bales good at $25; and 25 bales at $25,50.

MILL FEED—Is scarce and firm and in fair demand. Sale of 5 tons chopped feed at $2,10 per cwt.

POTATOES—In good demand and in very limited supply; prime Peach Blows may be quoted at $1,20@1,25.

CHEESE—Is selling regularly at 14 to 16c for New Western Reserve, according to quality.

DRIED FRUIT—Quiet and unchanged—small sales at 8@9c for Apples, and 10 to 15c for Peaches—quarters and halves.

LARD OIL—Is steady with regular sales at 87 to 88c for No. 2, and $1,08 to $1,10 for No. 1.

SEEDS—There is some little inquiry for Flaxseed at $3, but both Timothy and Clover are dull and neglected.

PITTSBURGH PETROLEUM MARKET

OFFICE OF THE PITTSBURGH GAZETTE,
MONDAY, may 27, 1866.

CRUDE—There was but a single operation in Crude to-day, at least but one reported, eight hundred barrels, to be delivered within ten days, at 7¼c. We are cognizant of offers to buy at 7½c, for June, buyer's option, and offers to sell at 7¾c, seller's option—10c could doubtless be obtained for all the year, buyer's option. The market continues exceedingly dull and depressed, with but little disposition manifested to buy or sell, as there is no inducement offered for either party, and as a natural consequence, there is next to nothing doing. Telegrams from above to-day quote at $2.45 at Petroleum Centre, and $2,75 at Oil City, and scarce and firm.

REFINED—There was not a solitary operation in bonded oil to-day, at least, we had none reported, and while the market is dull, weak and depressed, prices are nominally unchanged. Spot oil is quoted at 25½ to 26c, delivered in Philadelphia, for standard white—prime light straw to white cannot fairly be quoted above 25c. Some of our largest refiners have suspended operations, and others contemplate doing likewise in a few days. Those who have sold ahead can buy at a less price than they manufacture it; and those who have not sold, cannot sell now and make anything; and it is probably the best thing for the trade that can be done under the circumstances.

ARRIVALS—But a single arrival reported to-day, 1700 bbls for D. Bushnell.

NEW YORK, May 27.—Receipts, 4,157 beeves, 11,171 sheep and lambs, and 16,584 hogs. Beef cattle are decidedly firm, consequent upon the light supply and active demand. RIVER NEWS.

The river was about at a stand at this point last evening, with fourteen feet in the channel by the Allegheny marks. At Oil City, the river was reported rising slowly, with five feet four inches in the channel. The weather was clear and pleasant during the forenoon yesterday, but in the afternoon it became quite cloudy, and in the evening there was every appearance of more rain.

The Ida Rees got in from Cincinnati late on Sunday evening. She had a very good freight list, including a considerable amount of flour. The Columbia, from St. Paul, was due last night, and will doubtless be found in port this morning, and the Argosy, from Cincinnati, is due here to-day.

The Urilda and Echo arrived from Oil City, and the Echo left again last evening, with a seemingly good trip.

The Ida Stockdale reached Fort Randall on the 12th inst., which is about half way between St. Louis and Fort Benton. The Ida is, without doubt, one of the best adapted boats for the mountain trade that has yet been built; already she has passed nine mountain boats, and at last accounts she was in fair way for passing two more.

The Maggie Hays, Capt. D. L. Hendrickson, is now in turn for St. Louis, and will be the first boat out. The Argosy, Capt. Vandergrift; Mr. W. H. Scott in the office, is the regular Wednesday packet for Cincinnati, and the Ida Rees, Capt. Joe Brown, is announced for Cincinnati and Louisville.

Quite a number of towboats have arrived within the past day or two, and it is probable that some of them will get out again at once. They will all go again, providing tows can be secured, which is, to say the least, very doubtful.

The Great Republic was to have left New Orleans for St. Louis on Wednesday of last week.

The towboat T. D. Horner left Louisville for Pittsburgh on Friday evening, with a tow of empty barges, and the Diamond was to have left the same night for below with a tow of coal. She took all of her tow through the canal.

The Louisville *Courier* thinks Hamill was cheated out of the recent race for the championship, by the trickery of the Down Easter. It says:

"From all accounts published of the late race at Pittsburgh between Hamill, the Pittsburgh champion, and one Walter Brown, all the way down from Maine, it is very evident that Hamill was hosted out of the honors by the trickery of the Down Easter. It was a shabby affair, and not very reputable. Hamill is, no doubt, a gallant fellow, but wholly unable to compete with Yankee trickery. He went in for a fair and square contest like a man, and, in our opinion, stands far ahead of his tricky competitor. The latter evidently went in for the purse and the money, no matter how he got it."

The *Courier* does not think much of these Yankees, especially since the close of the rebellion.

The Albert Pearce, recently destroyed near Vicksburg, caught fire in the nursery, and fortunately was discovered in time to land the boat and permit the passengers and officers to get ashore. The flames spread rapidly, and very little, if anything could be saved. The officers mostly saved their private effects. The clerk used his endeavors to save the books and papers of the boat, but only secured the money in the safe and his own effects.

Fifty-five steamboats have been destroyed by accident on the western and southern rivers since the 1st of January.

A wrecking boat has arrived at Cairo, with the machinery of the Lackland, Natchez, and John Walsh, sunk during the war, in Yazoo river.

The La Crosse *Republican* affirms that the steamers of Davidson's "Lightning Line," between La Crosse and St. Paul, get into St. Paul every day an hour or more ahead of the cars, which leave Winona at the same time the boats leave.
